

SPEED DISPLAY TRAILER GUIDELINES

BUCKLE UP PENNSYLVANIA NORTH CENTRAL HIGHWAY SAFETY NETWORK

Before towing make sure that;

1. Hitch is properly seated and locked onto the towing vehicle's ball.
2. The coupler's pin and safety pin are in place.
3. Safety chains are properly attached.
4. The trailer lights are connected to tow vehicle.
5. All three leveling legs are fully recessed.
6. The front jack handle is secure.
7. The "Buckle Up" sign is removed.
8. The folding rack is secured in its down position.
9. Axle lock has been removed.

Refer to chapter 5 in manual to set up; chapter 6 to operate.
Manual is located in side door pocket.
